

THE LED SOLUTION

Embertec LED downlight globes are the solution

Accredited and subsidised under the Victorian Government Energy Saver Incentive Scheme, our globes:

- > Have a **lifespan of 20* years** or 60,000 hours
- > Come with a **3 year product warranty**
- > Produce **excellent light** in warm colors
- > Are **high quality Australian** designed products
- > Are available at a **subsidised price** and installed for free by a Licensed Electrician
- > **Reduce power consumption by over 80%** compared to old halogen globes

BIG SAVINGS

A home with 20 downlights could save over **\$400*** per year, which is over **\$8,000*** over the lifetime of the globes.

Book your installation NOW!

Another quality power saving product from the makers of Embertec SmartSwitch

visit: www.greenmadeeasy.com.au **email:** led@greenmadeeasy.com.au

call: **1300 658 069** (Monday to Friday 10am to 6pm)

* Calculations are based on: 1. Lifecycle tests approved by the VEET Scheme. 2. Replacing 50 watt halogen downlight globes with 7 watt Embertec LED downlight globes. 3. The estimated ESC carbon abatement factors for the products used. 4. The Victorian greenhouse gas coefficient as at July 2011. 5. An electricity price of 26c/kWh.

Installed by a
Licensed Electrician

With lighting contributing to around **30% of household electricity bills**,
NOW is the time to solve your halogen problem.

A quality product for every room! To suit your home's needs.
